

# PROFESSIONAL RANGE 2021

PROTECTIVE  
WATERPROOF  
CASES  
SINCE 1983

Used by  
Emergency Services,  
Safety & Rescue Teams  
and Coast Guards  
worldwide.

FOR HANDS FREE USE

[www.aquapac.net](http://www.aquapac.net)

# SINCE 1983 WE HAVE SOLD NEARLY 6 MILLION WATERPROOF CASES IN 60+ COUNTRIES WITH OUR AWARD WINNING INNOVATION THAT STANDS UP TO THE MOST INTENSE CONDITIONS.

Aquapac cases are proven to be:

## RELIABLE

Designed with quality materials to withstand extreme cold and heat

## DURABLE

Battle-tested to ensure the highest standards of keeping essential and valuable equipment functioning and protected everywhere

## TRUSTWORTHY

Used by Military, Coast Guard, Emergency Services and Safety & Rescue Teams in life and death situations

## OPTIMAL

Strategically designed to enable hands free use as much as possible

## ENVIRONMENTALLY FRIENDLY

Made from biodegradable or recycled components

## PRODUCT EXTENDING

Reduce corrosion of printed circuit boards in electronics – even waterproof units

## PROTECTED

5-year no-nonsense warranty on most products

## COVID-19

Around the world, Emergency Services, Doctors and Nurses have used Aquapac cases to reduce the transmission of the virus from their electronic equipment.

By isolating portable devices, it's easier and quicker to disinfect and reduce cross contamination and help infection control for healthcare workers as well as stop the rampant spread of hospital-acquired infection (HAI) or nosocomial infection.

## WATERPROOF RATINGS

### STORMPROOF

Protected against powerful water jets – water projected at all angles via a 12.5mm / 0.49" nozzle

### SUBMERSIBLE

Protected against immersion for 30 minutes to a depth of less than 1m / 3'

Protected against continuous immersion to a depth of 10m / 30'

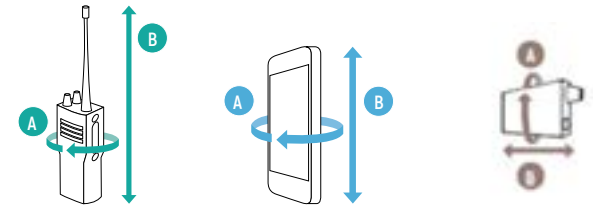

## TECHNICAL SPECIFICATIONS

We have shown dimensions to all products wherever possible in metric and imperial measurements.

For phones, two-way radios and radio mics:

To calculate A = add together the width and the depth of your device and multiply by 2 i.e.

iPhone 11 = 7.6cm wide + 1cm deep = 8.6cm x 2 = 17.2

## AQUACLIP IPX8 SEALING SYSTEM & IPX6/7 CLOSURES

We were first on the scene worldwide with our patented AQUACLIP sealing system. Made entirely of plastic, it was the first entirely rustproof and durable reusable sealing system.

AQUACLIPS allow for lanyards and shoulder straps to be attached so the user can safely and practically open and close as well as carry an Aquapac.

The AQUACLIP has been independently tested and proven to be:

- Waterproof for 30 minutes underwater to a depth of 10m / 30'
- The 85mm AQUACLIP is waterproof to 50m / 165'
- Withstand a temperature range of -25C / -13 F to 50C / 120F
- Able to be opened and closed over 5,000 times

The AQUACLIP comes in 8 different lengths from: 8.5cm to 35cm / 3.3" to 13.7".

### The TC AQUACLIP

Waterproofs a cable up to 2.5mm / 0.1" to an IPX6 waterproof standard.

### IPX8 AQUACLIP

Closed and ready for use.

### IPX8 AQUACLIP

The case is designed to stay attached to the AQUACLIP even when you open the case enabling simple practical use.

### IPX6/7 Closures

We also use a range of other sealing systems for non-submersible waterproof protection, including combinations of triple roll over, Velcro, heavy duty ziplock and double ziplock seals.

# TWO-WAY RADIO CASE EXTREME PRO

A

19.5mm / 7.6"

B

330mm / 13"

227 case shown is supplied with 973 shoulder harness

The slim, tough stud connector is at the heart of the Aquapac Dock System. The octagonal stud simply slides into any Aquapac Dock System dock and locks securely in place. Undocking your case takes a few seconds; simply rotate the case to the inverted position and it slides free.

Aquapac Dock System docks for radios can be attached to shoulder harnesses, jackets, belts, tactical loops or to rail/bicycle/motorbike mounts. Aquapac Dock System docks are featured on page 17 of the catalogue.

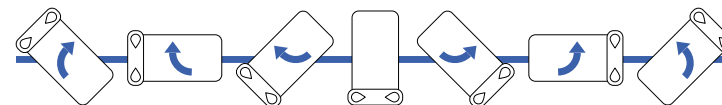

IPX8

## 226 Extreme Pro Case

NEW

Back of case with welded stud plate connector

Once docked, your kit can be rotated to any of seven fixed positions thanks to the built-in ratchet positioner.

# AQUAPAC DOCK SYSTEM RETROFIT KIT

The Aquapac Dock System connector stud can be retrofitted to any Aquapac case in a few minutes.

All you need to do is wipe the area you want to stick the stud with the surface cleaner, peel off the red liner and press to the mounting position and apply firm pressure for ten seconds. For a complete bond apply the stud plate and leave it for 24 hours before using it. After 20 minutes, it has bonded sufficiently for most applications.

This world class 3M VHB tape has been thoroughly tested for over ten years in every environment, from underwater, to the coldest and hottest temperatures on the globe.

This is usually a permanent installation but if you ever want to remove the stud and tape from the case, instructions are available on our website.

"

**My favourite Aquapac product – the Waterproof Phone Case – is even more versatile with the Dock System. I use the phone cases more than anything else and they continue to impress me that they last so long; the most vital piece of kit that I have from the Aquapac range. Incorporating the new Dock System on the Waterproof Phone Case is a fantastic addition. It can be positioned anywhere, in easy view without the risk of it flying out your pocket. Genius."**

## CUSTOM CASES & LOGO PRINTING

Aquapac have been printing logos and making custom cases for over 35 years for various sectors including:

- Coast Guard
- Military
- Medical
- Industrial
- Agricultural
- Clothing Manufacturers
- Communications

Our product development team will help you create the best solution for your requirement.

Print company logos or any message for a minimum of only 100 IPX8 Aquapac cases. We require artwork, pantone or CMYK reference for the colours you require.

## FULL 5-YEAR WARRANTY

Our warranty covers any Aquapac for five years from the date of purchase as new.

Our five year warranty covers defects in materials or workmanship. It does not cover defects caused by accident, animal attacks, neglect, normal wear and tear, improper care, or failure to follow our written directions available on our website at [www.aquapac.net](http://www.aquapac.net). It does not apply if examination or testing show an alleged defect does not exist.

It covers the product only, and not any items you may put inside the product. We are not liable for the cost of repairing or replacing any such items or any other incidental, consequential, special, or other damages. Some states and territories do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

## BIODEGRADABLE TPU

**How long does the Biodegradable TPU plastic used on Aquapac cases take to biodegrade?**

There is no specific testing standard for TPU but tests have been carried out. With heat and water acting as a catalyst, TPU will biodegrade faster.

However, if TPU lies in the ground by itself in a dry condition, it will last longer. Average biodegrade time from two to five years.

## AQUAPAC PAST, PRESENT & FUTURE

- '83** SINCE 1983 WE HAVE BEEN A GLOBAL LEADER IN WATERPROOF CASES
- 6M** NEARLY SIX MILLION CASES HAVE BEEN SOLD IN MORE THAN 60 COUNTRIES
- UK** AQUAPAC IS A BRITISH COMPANY HEADQUARTERED IN LONDON
- USA** AQUAPAC USA LLC IS IN FLORIDA WITH A DISTRIBUTION HUB IN NEW YORK STATE
- X3** AWARDED THREE QUEEN'S AWARDS: EXPORT, INNOVATION & ENTERPRISE

Aquapac creates functional, protective solutions with practical carrying systems by using innovative design with sustainability built into the product life and into the manufacturing processes and materials.

**We want to empower people to immerse themselves worry free in their activities wherever they go.**

## OUR CUSTOMERS

Our products are used by Search & Rescue teams, Emergency Services, Coast Guards, lifeguards, forestry managers, shipping companies and by many other outdoor workers all over the world. They are also used by hikers, mountain climbers and water sports enthusiasts as well as travellers.

We have supplied some of the leading companies and organizations in the world including Nokia, Sony, Jaguar, Motorola, Range Rover, the Winter Olympic Games, the US Coast Guard, the Royal Navy and many others.

## OUR MISSION

Design and manufacture high quality products which protect valuable equipment and possessions to make the outdoors safer and more enjoyable.

We look to offset and minimise more and more our environmental impact every year. We love nature, the great outdoors and we have a role to maintain it.

We aim to treat our customers the way we like to be treated ourselves. There is always more to be learnt from listening to what our customers want.

Aquapac phone / two-way radio / camera / armband / tablet / multi-purpose cases and dock system are all Made in Britain.

Map cases, backpacks, daysacks, pack dividers and first aid kit are designed by Aquapac and made in China.
